Summer term 2022 • Mrs Hunter: jhunter@eppingupland.essex.sch.uk

CURRICULUM

Art lessons will reflect our topic work and we will be developing our drawing and painting skills.

RE this term will be focused on Islam and we will be learning about important beliefs and festivals, as well as considering the links across different religions.

Mindfulness and good Mental Health continue to be an important part of our curriculum and we will explore ways of developing good habits. Within French this term we will be learning about shapes and Petit Chaperon Rouge, (Little Red Riding Hood)..

In Geography we will focus on 'Coasts' - how they are formed, how they are protected and how they change.

PE REMINDER

Our PE days are Wednesday and Thursday. Children should come into school in their PE kit on these days.

Final Term in Year 3

I hope you had a lovely Easter break and we can look forward to an exciting and busy Summer term! Our topic this term is 'Ancient Greece' and much of our learning will focus around this. We will be learning about what daily life was like, the importance of gods and goddesses, myths and the legacy from the Ancient Greeks which still affects our culture today.

Our Class Reader.

WHAT'S HAPPENING THIS TERM

ENGLISH

In English, we will look at adventure stories and the children will create their own. We will also learn about poetry, writing explanations and non-chronological reports, as well as using adverts for persuasive writing. Reading diaries should be in school each Monday please and your support with these at home is appreciated.

MATHS

In Maths we will continue to work on addition, subtraction, multiplication and division, both mentally and also by using written methods. We will also focus on fractions, measures, data and time. Learning multiplication tables continues to be an important part of our work. Just a reminder that www.timestables.co.uk is an excellent website to practise these.

SCIENCE

In Science, our first topic is 'Animals including Humans'. We will explore how to stay healthy and we will also learn about skeletons and their important functions. Our second Science topic will be 'Plants' and we will be learning about the life cycle of a flowering plant, seed dispersal, how water moves through plants and how it grows.
